

Privacy Policy

Effective: May 23, 2025

Introduction

TimasDev respects your privacy. We collect only the information we need to build and maintain your online presence.

What We Collect

- Basic business info – Business name, address, phone, public e-mail.
Why : To show on your website, map listings, and social profiles.
- Contact details – Your name, work e-mail, phone.
Why : Day-to-day project communication.
- Hosting / domain info – Domain registrar credentials (if you share them).
Why : To connect your domain and hosting, at your request.

No sensitive or internal data is requested unless you expressly provide it, in writing, for project purposes.

Consent, Ownership & Your Rights

- Your Consent – All information you share with TimasDev is provided voluntarily for the sole purpose of completing your project.
- Your Ownership – You retain full ownership of every asset and piece of data you supply.
- Your Choices – At any time you can request that we:
 - Send you a copy of the data we hold
 - Correct inaccuracies
 - Delete project files held in our active systems

- Confidential Items – If any data you supply is confidential, mark it as such in writing. We will treat it according to this policy and never publish it.

Data Collection Purpose

- We collect information strictly to deliver the project you hired us for—nothing more. Specifically we:

Build & launch your website, listings, or digital assets.

- Connect services (e.g., domain registrar, hosting, map listings) that require basic public details.
- Maintain basic contact info (name, business e-mail, phone) so we can send support notices, occasional service updates, or promotional offers only if you've opted in.

We do not profile you, resell your data, or store backups indefinitely. When the project ends, we erase non-public files after 90 days unless you ask us in writing to keep them longer.

We might use your basic contact details for occasional service updates or promotional offers only if you've opted in, and you can unsubscribe in one click or by emailing us; we honor opt-out requests within 48 hours.

No Long-Term Data Storage

We keep project files only while the project is active and for 90 days afterward (for quick edits or bug fixes). After that, they are deleted unless you request extended storage in writing.

Payments & Financial Data

- Stripe and Zelle process all payments on our behalf.

- TimasDev never sees, stores, or transmits your card or banking details.
- Any fraud, chargeback, or sending Zelle funds to an incorrect address is strictly between you and the payment provider; TimasDev accepts no liability.

We never request card numbers by phone, email, or chat. If you receive such a request, assume it is fraudulent and notify us immediately.

Third-Party Services

- Your basic business details may be shared with:
- Domain registrars and hosting providers (to connect your site)
- Map/listing services (Google, Apple, Bing, Waze)
- We cannot control or guarantee the security of those third-party platforms. Any breach on their side is outside TimasDev's responsibility.
- Our hosting and email providers may store data on servers outside your country. By using our services you consent to those transfers, provided the vendors apply comparable security safeguards.
- Legal Disclosure – We may release information if required by law or valid government request (e.g., subpoena or court order).

Data Security

We use reputable, industry-standard tools (SSL, password managers, two-factor auth) to protect project data while it is in our possession.

While we follow industry best practices (SSL, 2-factor auth, encrypted vaults), no internet transmission or storage system is 100 % secure; therefore TimasDev cannot guarantee absolute security. If a breach occurs, we'll notify you promptly.

Cookies & Tracking

Our website uses basic cookies for analytics and page-load optimisation. You can disable cookies in your browser and the site will still function.

Children's Privacy

Our services are not directed at children under 13 and we do not knowingly collect data from minors.

Updates to This Privacy Policy

- TimasDev may revise this Privacy Policy from time to time. When we do, we will:

Notify you via the primary email address on file and/or display a prominent banner in your client portal or on our website.

- Specify an effective date—normally 14 days after the notice is sent, unless a different date is stated.

By continuing to use our services after the effective date, you automatically accept the revised policy. Your failure to read, receive, or otherwise review the notice—whether due to outdated contact details, spam filters, or other delivery issues—does not exempt you from compliance. It is your responsibility to keep your contact information current.

Policy Scope Clarification

- Scope – This Privacy Policy applies only to the information collected directly by TimasDev through our website, direct client communication, and during the course of delivering our services.
- Third-party platforms – If you choose to link or integrate services such as domain registrars, analytics tools, social media, or directory listings, their privacy practices are governed by their own policies, not ours. We recommend reviewing their terms independently.
- External links – Our site or communication may contain links to third-party websites. Clicking these links is at your discretion, and

TimasDev is not responsible for how those external sites collect or use your data.
